Kristopher Kohlmeier
Creative Technical Support

Camarillo, CA | (805) 276-4713 | kristopherkohlmeier@gmail.com | [LinkedIn](#) | [website](#)

ABOUT

Tech-savvy problem-solver with four years of live event AVL experience and IT support work experience in animation studios. Skilled at keeping creative teams productive by resolving technical issues quickly and reliably in fast-paced environments.

WORK EXPERIENCE

Production Technology Lead   Nov 2021 – Present
[Crossroads](#) | Camarillo

- Oversaw and maintained all hardware and software related to live events on-site.
- Utilized problem-solving skills to resolve hardware and software failures during live events, keeping production running smoothly and preventing services from halting.
- Led and implemented over $60,000 in projects to improve and revitalize AVL systems, testing hardware to ensure quality standards are met for weekly events.
- Led a team of production volunteers, collaborating with team members by onboarding systems and technologies that improved production quality and setup efficiency.
- Travelled with their parent organization to set up and operate all technical aspects of their yearly conferences.

Animation Technology Intern   Jun 2023 – Aug 2023
Skydance Animation Studios | Santa Monica

- Learned the pipeline process for CG movies from inception to post-production.
- Solved Jira tickets for client services and set up a fleet of new machines with their MDM software.
- Set up tracking for all editorial hardware, assisting the media engineering team during studio location changes.
- Helped set up hybrid meetings for creative leadership to review in-progress features.
- Worked with the systems engineers to integrate a studio-wide printing system and made SOPs for the system.
